

RingByName[®]

Cloud Based Business Phone System

RingByName Value Proposition

- Lower capital expense than premise PBX
- Competitively-priced
- US-based support
- Scalability
- Hardware Vendor agnostic interoperability
- Resiliency and redundancy

Sales Benefits to Your Company

INCREASE YOUR SALES

Problem

Clients are reticent to buy from small businesses

Solution

R! makes your business appear as a Fortune 500 company with professional greetings, music on hold, department set-up, business hours rules, and even your transferred calls to cellphones are answered with the company name. Also, voicemails go to email for immediate action.

Problem

Potential sales calls are missed or go to voicemail, thus immediate opportunities to convert are forfeited.

Solution

No calls are ever missed! Call intelligence software can be programmed to route calls to the entire sales team on a first answer basis or be transferred to their cellphones when not in office.

Problem

Potential clients are not followed-up on a timely basis

Solution

R!'s CRM allows for posting notes of the call, scheduling call backs, and tracking all activity leading to a sale.

Competitive Advantages

Put yourself in a favorable or superior business position

- Never miss a call: Call forwards from office phone to cellular
- Enhanced caller ID feature greets previous callers with their name
- Only service with built-in CRM for posting/sharing notes and F/U
- Real-time call monitoring and analytics
- Unlimited calling to 67 countries
- International DIDs available
- Unlimited local dialing plan available for only \$14.95
- Call recording available

”

If you don't have
competitive
advantage do not
compete.

Jack Welch

”
